

led profile serie PROFESIONAL para superficie. Está fabricada en policarbonato con 6 colores diferentes. El perfil es ideal para iluminación perimetral en fachadas, edificios o similares.

Apto para tiras de led con un ancho máximo de 15mm y una potencia no superior a 20W/m.

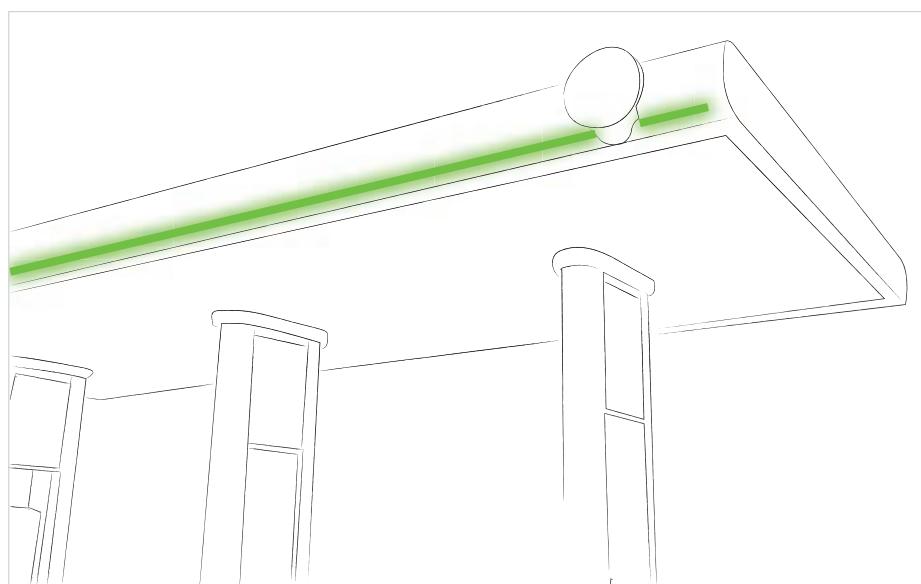

Recomendamos el uso las tiras de led ecoled Canovelles-Vizcaya-Cob IP67- Castellón RGB para conseguir una iluminación más homogénea y difuminada.

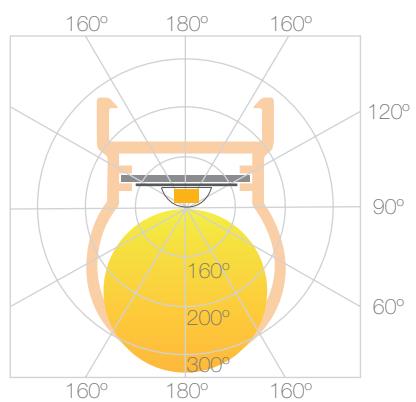

### Perfil de policarbonato

### Ejemplo:

### Ángulo de luz:

Complementos:

**Grapa**  
20.053 policarbonato

**Codo derivación**  
22.171 rojo  
22.172 azul  
22.173 blanco

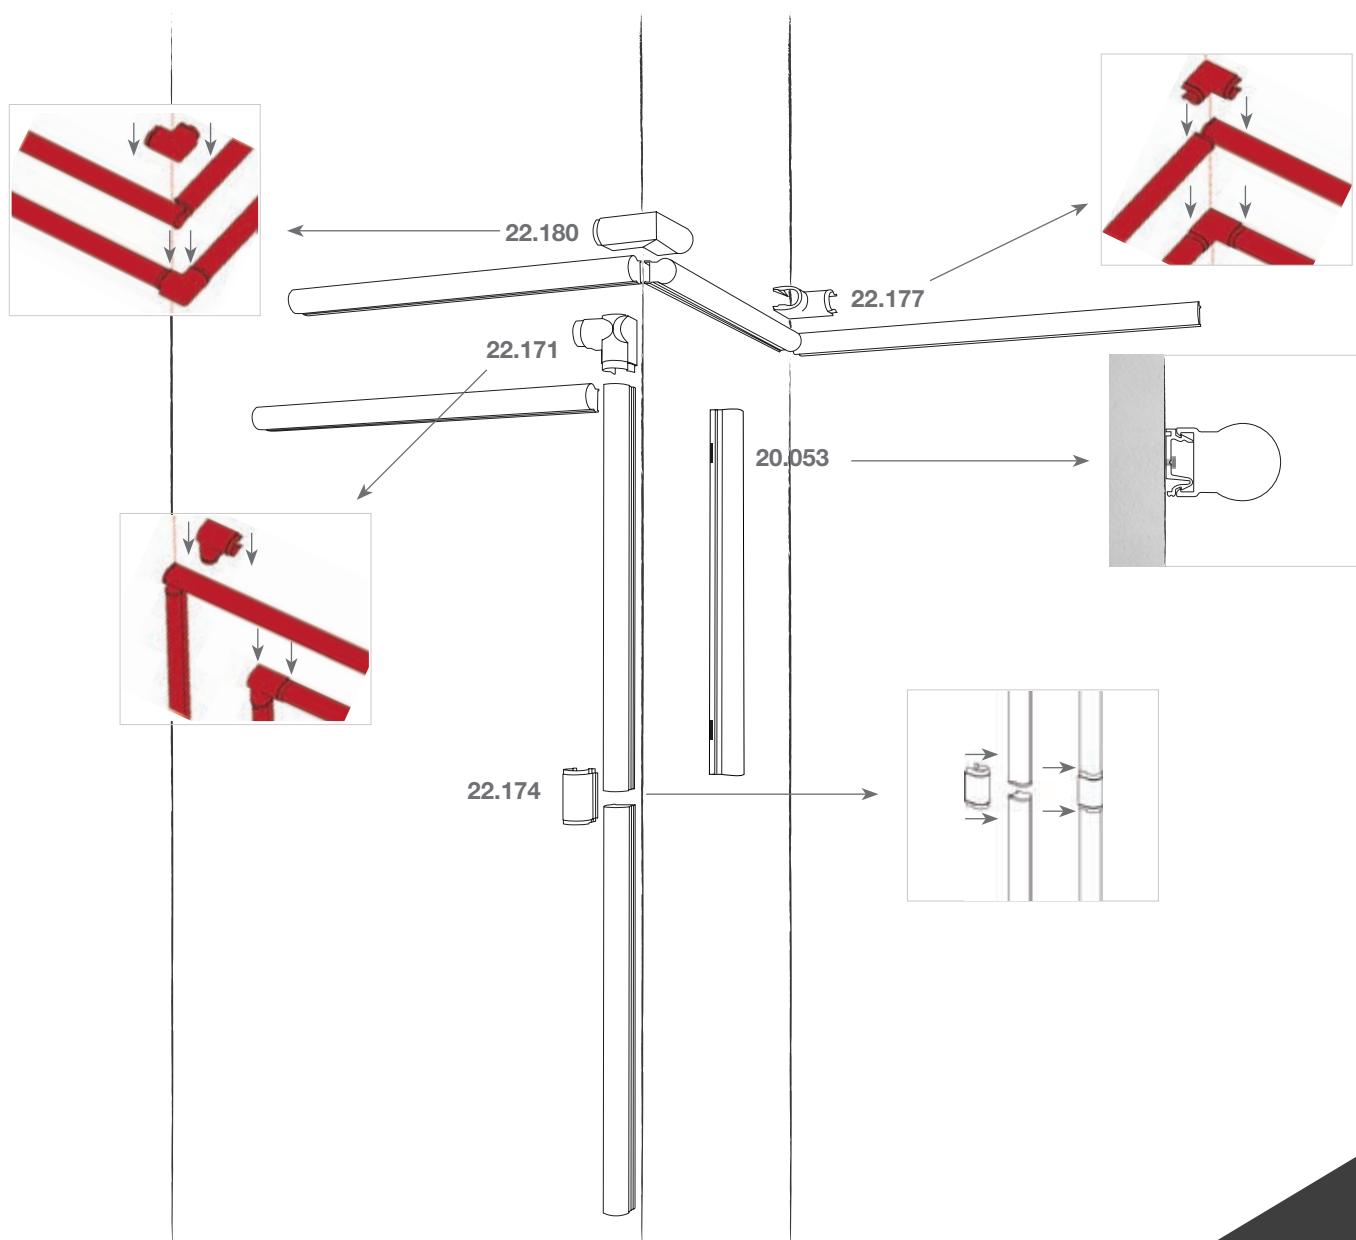

**Codo interno**  
22.177 rojo  
22.178 azul  
22.179 blanco

**Codo externo**  
22.180 rojo  
22.181 azul  
22.182 blanco

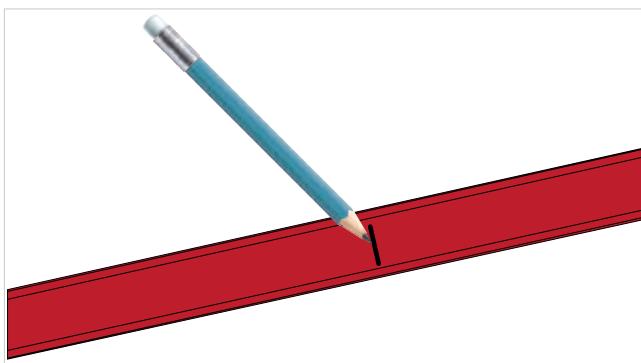

**Unión**  
22.174 rojo  
22.175 azul  
22.176 blanco
