

led profile by Luz Negra

Our PROFESSIONAL led profile series for recessing applications is manufactured in high purity aluminium and lacquered in textured white, black and grey. Drivers can be housed inside. The internal tray allows us to screw the 20mm rigid led strip on one side and enables us to house the power supply on the other. At the same time this tray can be removed from the front which means easy maintenance. For safety we recommend the fixing of a braided cable from the profile base to the dissipation tray. Both profile and cover are available in 3.4 metre lengths.

We offer a 5 year guarantee on the profiles and covers.

KRAKOVIA ASYMMETRIC

Aluminium profile

| | | |
|--------|----------------|-------|
| 14.011 | textured grey | 3.40m |
| 14.012 | textured white | 3.40m |
| 14.013 | textured black | 3.40m |
