

CHICAGO

Our PROFESSIONAL led profile series is for surfaces or embedding with a width of only 6mm and manufactured in high purity aluminium and anodised in silver. The very latest in thin led profiles as the width of visible light is only 2.5mm. Its main function is for embedding in furniture and wherever we may need a very fine line of light. This is a very elegant and exclusive product.

We recommend the use of ecoled Getafe and Irún due to its extremely thin PCB and for side lighting.

We offer a 2 year guarantee on both profiles and covers.

Scale 1:1

Scale 1:2

Aluminium profile

01.015 anodised silver 1m

Endcaps

19.014 without hole
19.015 with hole

Methacrylate cover

18.021 opal 1m

(to simply installation we recommend fixing the cover with double sided tape).

Fixing screw

22.002 chrome steel

Aluminium alloy extrusion process in accordance with: ISO 9001:2008 - ISO 14001 / Tolerances defined by: UNE-EN 755-9 / UNE-EN 12020-2
Theoretical weight: 0.285kg / Alloy: 6063 / Perimeter: 116.6mm / Anodising minimum: 15 microns
Aluminium purity: 95-98% / Material treatment: T-5 / Covers: methacrylate (greater protection against UV rays)
