

# led profile by Luz Negra

## BERNA

Our BASIC led profile series for surfaces, manufactured in curved aluminium is available in lacquered white (on demand, we can supply different anodised and lacquered finishes). Ideal for wall surfaces, ceilings, display units, furniture, shelves and similar. It is fixed using single or double-sided magnetic adhesive tape.

Suitable for led strips with a maximum width of 35mm and a power not greater than 35W/m. Apart from the flexible led strips, rigid ones can also be combined with this profile).

In order to obtain a more homogeneous illumination, while also making the light dots invisible, we recommend the use of our Canovelles-Barcelona-Gomera-COB ecoled strips.

**We offer a 2 year guarantee on our profiles and covers.**

Scale 1:1

### Aluminium profile

02.028 white aluminium 2m

### Plastic endcaps

19.286 methacrylate frosted

### Methacrylate cover

18.040 frosted white 2m

### WARNING:

As this is not an extruded profile (manually folded profile) there are some tolerances in the final external measurements (mm). The dimensions therefore in this technical drawing are approximate.
