

Our PROFESSIONAL led profile series for surfaces and ceiling suspension is manufactured in white frosted methacrylate. The profile is ideal for surface applications, for example ceiling suspended luminaires or wall mounted luminaires, and similar.

It is suitable for led strips with a maximum width of 15mm and a power not greater than 15W/m. In order to obtain a more homogeneous illumination, while also making the dots invisible, we recommend combining it with our Canovelles-Barcelona-Gomera-COB ecoled strips.

We offer a 2 year guarantee.
