

Our PROFESSIONAL led profile series, treadable and for indoor use, is manufactured in high purity aluminium and available in anodised silver and black. Suitable for illuminating floors and stairs, bathrooms, corridors, theatres, or similar.

Its "easy-ON" cover, when combined with this profile, provides an IP65 rating. Therefore, the profile can be used in places with high levels of humidity, while also being highly durable to treading. Its double side channels allow us to house all types of cabling (circuit closure wires for avoiding tension drops, telephone cables, etc).

Combined with our rigid led strips, it can be used as an ultra thin surface luminaire for ceilings.

This profile and its covers are available in lengths of 2 and 6 metres, allowing us to carry out large projects where all the profiles do not need joints. Suitable for led strips with a maximum width of 21mm and a power not greater than 40W/m. In order to avoid system malfunctions and potential failures, We recommend combining it with Canovelles our Vizcaya ecoled strip or similar products with our DUO waterproof system.

When installed under conditions of high humidity, we strongly recommend filling the profile with the resin in order to achieve an IP67.

We offer a 10 year guarantee on the profiles and a 4 year guarantee on the covers.

FLORENCIA

IP65

Scale 1:1

Aluminium profile

07.004	anodised silver	2m
07.015	anodised black	2m
07.005	anodised silver	6m
07.014	anodised black	6m

Endcaps

19.119	silver aluminium
19.466	black aluminium
19.120	grey plastic without hole
19.121	grey plastic with hole

Epoxy resin

22.018	1 Kg
	+ 1 catalyst of 400g

Polycarbonate cover IK10

18.012	frosted	2m
18.013	frosted	6m

Inferior insulating plate

22.020	aluminium	2m
