

led profile serie PROFESIONAL para superficie. Está fabricada en policarbonato con 6 colores diferentes. El perfil es ideal para iluminación perimetral en fachadas, edificios o similares.

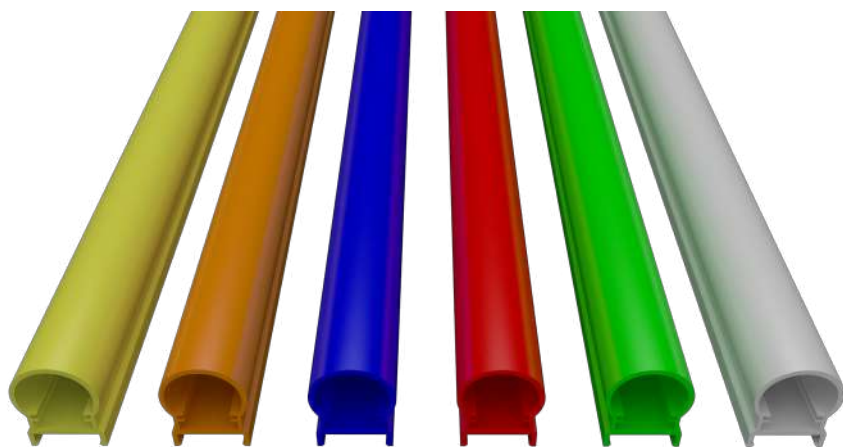

Apto para tiras de led con un ancho máximo de 15mm y una potencia no superior a 20W/m.

Recomendamos el uso las tiras de led ecoled Canovelles-Vizcaya-Cob IP67- Castellón RGB para conseguir una iluminación más homogénea y difuminada.

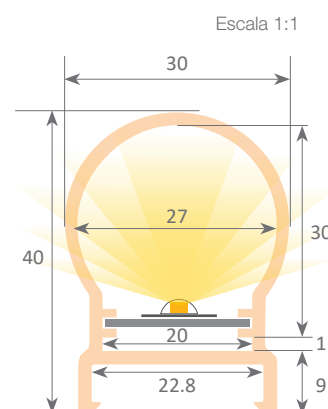

Diseñado por Luz Negra - Fabricado en España
