

Led profile de la série PROFESSIONNELLE pour application en surface. Fabriqué en polycarbonate et disponible en 6 couleurs différentes. Ce profil est idéal pour l'éclairage périmétral des façades, bâtiments ou similaires.

Convient aux bandes LED d'une largeur maximale de 15mm et d'une puissance ne dépassant pas 20 W/m.

Nous vous recommandons de l'utiliser rubans ecoled Canovelles-Vizcaya-Cob IP67-Castellón RGB pour obtenir un éclairage plus homogène et diffus.
