

**MONOCOLOUR-CCT-RGB-RGBW-RGB+CCT CONTROLLER**
**SEQUENCERS FOR LEDS**
**Ref: 40.017**
**Controller**

Power supply with integrated controller.  
Both products are 5 in 1.

It means that we can control 5 different types of strips:

- Monocolour
- CCT
- RGB
- RGBW
- RGB+CCT

Compatible with controllers:

- 41.025
- 41.030
- 41.031
- 41.089

**Indicating lamp showing instruction:**

| Indicating lamp colour | Output mode       |
|------------------------|-------------------|
| White light            | Single color mode |
| Yellow light           | Dual white mode   |
| Red light              | RGB mode          |
| Green light            | RGBW mode         |
| Blue light             | RGB+CCT mode      |

|                                    |  |
|------------------------------------|--|
| Power (W)                          | 100W                                     |
| Voltage (V)                        | 24V                                      |
| Input voltage                      | AC180~240V<br>50/60Hz                    |
| Channels (output)                  | 5  |
| Maximum load                       | 4.5A                                     |
| Signal detection distance          | 30m                                      |
| Maximum signal reception distance: | 30m clear, repeating signal between them |
| Control                            | 2.4GHz                                   |
| Measurements                       | 290x51.5x29.5mm                          |
| Colour regulation                  | yes                                      |
| Feeding type                       | via cable                                |
| Control method                     | remote control                           |
| Working temperature                | -20°C / 60°C                             |
| Waterproofing                      | IP20                                     |
| Fixing                             | can be installed using screws            |
| Packaging                          | 1 unit                                   |
| Guarantee                          | 2 years                                  |

**MONOCOLOUR-CCT-RGB-RGBW-RGB+CCT CONTROLLER**
**SEQUENCERS FOR LEDS**
**Auto-transmitting function:**

Different controllers can work synchronously when they are started at different times, controlled by the same remote, under same dynamic mode and with same speed.

**Remark:**

1.  Indicating auto-transmitting.
2. Controller will be auto-synchronizing in the same dynamic modes and within 30m controlling distance.

**Auto-transmitting diagram:**

One strip controller can transmit the signals from the remote control to another controller within 30m, as long as there is a strip controller within 30m, the remote control distance can be limitless.

**Remote controller:**

Compatible with these remote controls (purchased separately). For more details, please read the remote instructions.
