

Features:

- Silky, soft-touch silicone neon, with opaline front and integrated light source.
- Great for lighting up cornices and for creating decorative perimeter lighting, large letters and advertising texts, etc...
- Degree of protection: IP67
- Uses high quality silica gel and is resistant to yellowing, UV rays, saltpeter, high temperatures and is also flame retardant.
- Neon with frontal light emission.

Reference	Colour temp.	Lumens/m	Lumens/W	Energy efficiency
10.242	6000K	747	63	G
10.241	4000K	816	69	G
10.240	3000K	749	63	G

Technical characteristics

Power (per metre)	12W/m
Power (full 5m roll)	60W
Voltage	24V
Degree of protection	IP67
Led information	
Number of leds per metre	140

Photometric data

CRI	90
Opening angle	110°

Aspects

Dimmable	Yes *1
Installation	Surface / Recessed
Apt for	Indoor / Outdoor
*1 Adjustable with appropriate controllers.	

Temperatures and operating conditions

Working tempetarure	-40°C/+55°C
Storage temperature	-40°C/+60°C

Useful lifespan

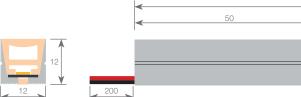

Estimated lifespan	30.000h *2
Daily recommended use	18h

*2 Depending on the dissipation of the profile, the daily working hours and the external environmental working temperature.
