

Our PROFESSIONAL led profile series is manufactured in high purity aluminium and available in silver anodised. The profile is suitable for corridors and walls.

Suitable for led strips with a maximum width of 12mm and a power not greater than 20W/m. In order to obtain a more homogeneous illumination, while also improving the dot free effect, we recommend combining it with our Canovelles-Barcelona-Gomera-COB ecoled strips.

**We offer a 2 year guarantee on our profiles and covers.**

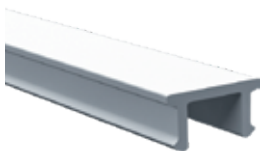

### Aluminium profile

09.047 lacquered white 3m  
09.048 lacquered silver 3m

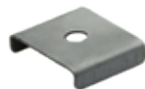

### Plastic endcaps

19.551 grey  
19.550 white

### Polycarbonate cover

18.083 opal 3m

### Clip

20.052 chrome steel

Aluminium alloy extrusion process in accordance with: ISO 9001:2008 - ISO 14001 / Tolerances defined by: UNE-EN 755-9 / UNE-EN 12020-2  
Alloy: 6063 / Anodising minimum: 15 microns  
Aluminium purity: 95-98% / Material treatment: T-5 / Covers: Fireproof V0
